

**Online CC-P® Prep Programs**  
A Series of Live Training Programs  
[ClimateOfficers.org/online-prep](https://ClimateOfficers.org/online-prep)

**Summer 2021 Live Online CC-P® Prep Programs**

The Association of Climate Change Officers (ACCO) is offering a series of live online training programs to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training in a peer cohort environment that will prepare them for the [Certified Climate Change Professional® \(CC-P®\) credential](#) and [CC-P® Candidate](#) exams by leveraging a combination of video homework, live training and interactive exercises/discussions.

Participants will learn from experts and practitioners about the implications of climate change, and related opportunities. In addition to climate change and sustainability practitioners, the curriculum has been designed to benefit professionals worldwide across a broad range of occupations in the public and private sectors, higher education and the NGO community.

**Delivering Value**

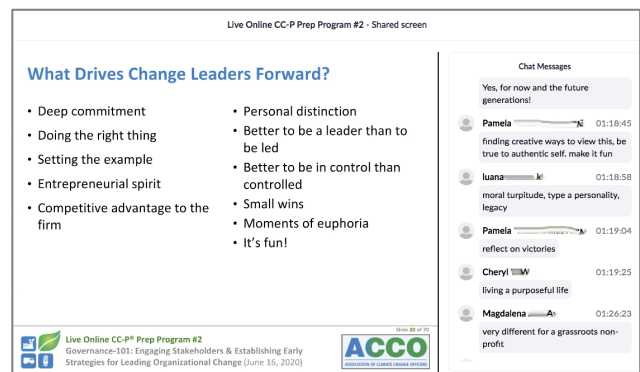

Key Skills and Competencies Addressed	Live Online Program Features
---------------------------------------	------------------------------

- Recognizing climate impacts on an organization’s operations, mission and bottom line
- Applying enterprise risk management to climate change
- Managing short-term and long-term uncertainty
- Tailoring communication to different audiences
- Leading and supporting organizational change
- Understanding resource consumption and systems implications
- Assessing the policy landscape and developing an action plan
- Collaborating with peers to tackle real-world challenges

- A blend of self-study resources and live online instruction courses
- Case studies from practitioners and insights from fellow CC-P® professionals
- A program structure designed to guide you through the certification process
- The opportunity to expand your network by connecting with fellow attendees
- Assignments that help reinforce program sessions
- Sample test questions
- Real-time Q&As with instructors and facilitated discussions among participants
