ACCO
ASSOCIATION OF CLIMATE CHANGE OFFICERS

Winter 2024 Live Online CC-P® Prep Programs
(Updated January 10, 2024)

The Association of Climate Change Officers (ACCO) offers live online training programs designed to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training in a peer cohort environment that will prepare them for the Certified Climate Change Professional® (CC-P®) credential and CC-P® Candidate exams by leveraging a combination of video homework, live training and interactive exercises/discussions. The curriculum has been fully updated as of Spring/Summer 2023 through the development and impending publication of the CC-P® Study Guide in Fall 2023.

Participants will learn about the implications of climate change, and related opportunities. In addition to climate change and sustainability practitioners, the curriculum has been designed to benefit professionals worldwide across a broad range of occupations in the public and private sectors, higher education and the NGO community.
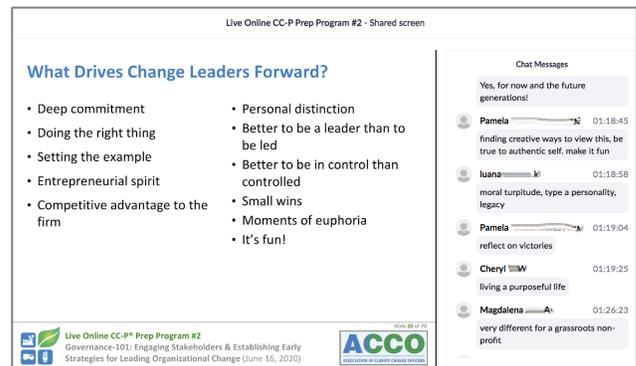

Learn from Experts   Build Your Knowledge   Elevate Your Skills   Learn with Peers   Access Study Resources   Earn Your CC-P®

Delivering Value

Key Skills and Competencies Addressed	Live Online Program Features
- Recognizing climate change impacts and implications on an organization's operations, mission and bottom line - Applying enterprise risk management to climate change - Managing short-term and long-term uncertainty - Tailoring communication to different audiences - Leading and supporting organizational change - Understanding resource consumption and systems implications - Assessing the policy landscape and developing an action plan - Collaborating with peers to tackle real-world challenges	- A blend of self-study resources and live online instruction courses - Case studies from practitioners and insights from fellow CC-P® professionals - A program structure designed to guide you through the certification exam and application process - The opportunity to expand your network by connecting with fellow attendees - Assignments that help reinforce program sessions - Sample test questions - Real-time Q&As with instructors and facilitated discussions among participants
